Foreword

Estuaries constitute a major fisheries resource of our country. The principal estuarine system in India pertain to the rivers Ganga in West Bengal (Hooghly-Matlah estuarine system) ; the Mahanadi in Orissa ; the Godavari and the Krishna in Andhra Pradesh, the Cauvery in Tamil Nadu and the Narmada and Tapti in Gujarat. The important brackishwater lakes of the country are the Chilka in Orissa, the Pulicat in Tamil Nadu and Vembanad with connected backwaters in Kerala. The east of Kolkata city is gifted with a vast low lying natural estuarine Wetlands covering an area of about 40,000 ha where pisciculture is being practised since long.

In view of the immense importance of estuarine fisheries different research organisations are devoted in the estuarine fisheries research, resulting in the generation of huge volume of research information. Compilation of literature on this vast subject is a herculean task and I strongly believe that the present compilation work covering the literature on estuarine fisheries will be very useful for the researchers, students, planners and policy makers who are engaged in estuarine fisheries research and trade.

**V. V. Sugunan

Acknowledgement

The authors are indebted to Dr. V. V. Sugunan, Director, CIFRI for providing necessary facilities and encouragement. The authors express their gratitude to Dr. M. Sinha, former Director for his kind encouragement and according necessary permission and also to Dr. A. K. Ghosh, Ex-Acting Director and Officiating Head, Estuarine Division for his encouragement.

The authors are grateful to Dr. Amitabha Ghosh, Principal Scientist and Mrs. G. K. Vinci, Principal Scientist for their guidance, help and the keen interest they have shown for preparation of the manuscript. The kind help rendered by Dr. D. Nath, Principal Scientist, Acting Head, Estuarine Division, Shri H. C. Karmakar, Principal Scientist, Dr. Utpal Bhowmik, Principal Scientist, Dr. Manas Kumar Das, Principal Scientist is gratefully acknowledged. Shri T. Chatterjee, Technical Officer, Shri D. Saha and Shri A. K. Barui, Technical staff members and Shri Pradipta Sen, jr. clerk of Kolkata Research Centre provided all sorts of help without which such a huge work would not have been completed and for that the authors are thankful to them.

About the Bibliography

The Bibliography on Estuarine Fisheries of India, 1948-2000 has been complied in three parts comprising references pertaining to 1948-1980, 1981-1989 and 1990-2000 in one volume with Author and Serial indices. The contents of this Bibliography refer to the work done by Indian Scientists in the field of estuarine and brackishwater, backwater and coastal area fisheries and estuarine wetlands.

The references have been collected mainly from the huge stock of CIFRI Central Library and the library of the Kolkata Research Centre of the Institute.

Contents

Entries		Page No.
Part I	1 - 442	1 - 39
Part II	443 - 806	41 - 75
Part III	807 - 1129	77 - 109

Cumulative Indices :

Author Index	111 - 145
Serial Index	147 - 172

Part-I (1948-1980)
